

Description:

The University of Idaho, Washington State University and Oregon State University cooperate in a program of veterinary medical education (WOI Veterinary Medical Education Program) established in 1974. The Doctor of Veterinary Medicine (DVM) degree is awarded by Washington State University (WSU) and Oregon State University (OSU).

Major Functions and Targeted Performance Standard(s) for Each Function:

1. Provide access to veterinary medical education for Idaho residents.

A. Provide enrollment opportunities for a total of 44 Idaho residents in veterinary medical education, including 11 new first-year enrollments per year.

Program Results and Effect:

The University of Idaho is a full partner in the program with a contractual relationship with Washington State University providing access to veterinary medical education for 44 Idaho residents. Idaho students receive their DVM degrees from WSU. The University of Idaho provides educational opportunities for students in the WOI Veterinary Medical Education program through 65 one-month blocks in food animal production and clinical experience at the Caine Veterinary Teaching Center (CVTC) in Caldwell. Faculty at the CVTC cooperate with Idaho veterinarians in food animal production, diagnosis and clinical evaluation of disease.

Program Results and Effect:

The WWAMI Medical Program provides medical education to the citizens of the State of Idaho through the University of Washington School of Medicine in cooperation with the University of Idaho. Our primary goal is to provide an excellent medical education. Our mission is to provide an emphasis in primary care medicine with a rural orientation to meet Idaho's special needs.

The WWAMI Program offers the first, third and fourth years in Idaho, through the University of Idaho, the Idaho Track and the WWAMI Rural Integrated Training Experience.

Programs such as U-DOC and Native American Center of Excellence encourage young people from rural or minority groups to enter health careers.

Program Results and Effect:

The Idaho Dental Education Program has provided Idaho's residents with the opportunity to access dental education as if Idaho had their own dental school. The program has been able to provide that level of access without incurring cost similar to developing and funding of an in-state dental school. The program's participants have returned to Idaho to practice dentistry in acceptable numbers and have provided practicing dentists with the opportunity to participate in continuing education programming. One of the objectives of the program is to continue to provide positive effects for the citizens of Idaho which it has provided in the past. To achieve that objective and to expand the future role of the program in fulfilling its broad mission will require the continued effort and diligence which has been the hallmark of the program for the past 20 years.
